

Khin Hnin Thar

JUNIOR MOBILE & SOFTWARE DEVELOPER

✉ khinhninthar150567@gmail.com ☎ 09789079166 📍 Myaynigone 🌐 linkedin.com/in/khin-hnin-thar-06bb7621a

Junior mobile developer with hands-on experience building Flutter applications for e-commerce, HR, warehouse management, and POS systems. Skilled in REST API integration, offline-first architecture, and cross-functional collaboration with backend teams and clients. Recent BSc graduate in Business Computing and Information Systems, combining strong technical foundations with practical delivery experience across the full software development lifecycle.

PROFESSIONAL EXPERIENCE

Junior Mobile Developer — MDG

2024 - 2026

- Developed and maintained mobile applications using **Flutter and GetX** for business and operational workflows.
- Implemented new features and enhanced existing functionality based on business and customer requirements.
- Developed business logic for credit collection, stock validation, delivery workflows, and operational processes.
- Integrated mobile applications with **REST APIs**, collaborating closely with backend developers for reliable data communication.
- Implemented and maintained **offline-first data handling** using Realm.
- Investigated and resolved application errors, bugs, and production issues to improve stability.
- Conducted QA testing to identify functional issues and verify new features before release.
- Participated in client meetings, clarified requirements, and supported resolution of customer-reported issues.
- Contributed to e-commerce, HR management, warehouse management, and POS-related systems.
- Collaborated with cross-functional teams throughout development, testing, and delivery.

Internal HR System Project

- Customized and developed **Odoo modules** for attendance, leave, out-pass, resignation, and equipment management.
- Designed multi-level approval workflows and automated notifications for HR processes.
- Implemented complex attendance logic including night shifts and cross-day attendance.
- Generated Excel and PDF reports for HR and management use.
- Developed database-driven functionality to reduce manual HR processes and improve operational efficiency.
- Debugged existing modules and implemented improvements based on user feedback.

CORE SKILLS

Analytical Problem Solving

Client Communication

Team Collaboration

Adaptability

Fast Learning

Debugging & Troubleshooting

Requirement Understanding

Time Management

Agile / Scrum Mindset

EDUCATION

BSc (Hons) Business Computing and Information Systems
University of Central Lancashire (UCLan)

2026 · Overall Result: 76%

Focus: Business Computing, Information Systems, Business Management, Software Development

NCC Level 3, 4, 5 Diploma in Computing
University of Central Lancashire (UCLan)
2022 - 2025

Diploma in Python
NiT
2025

TECHNICAL TOOLKIT

Flutter & GetX
REST API Integration
Realm (Offline-first DB)
Odoo Module Development
Python (OOP)
QA & Bug Resolution

CERTIFICATES

- Cambridge ESOL Exams (Starter to KET)
- Scrum Methodology — exam-based learning
- Ongoing self-study: Python OOP, mobile architecture, backend technologies, software architecture
